

ENVIRONMENTAL POLICY

MAKIBER S.A. and its subsidiaries ("MAKIBER"), adhere to the undertaking set out in the Environment Policy of the COBRA I.S. Group, of which they are members, , and with the VINCI Manifesto and Environmental Guidelines of the VINCI Group, of which the COBRA I.S. Group is in turn a member.

The Management of **MAKIBER** assume responsibility for and acquire the commitment to foster green growth and maintain an Environmental Management System in accordance with internationally recognised standards, under UNE-EN-ISO-14001:2015.

Thus **Makiber** strengthens the commitment it has already acquired to develop and improve its environmental policy throughout the organisation according to the following criteria:

- Updating updated and regularly reviewing an environmental management system that provides the suitable framework for guaranteeing a process of continuous improvement.
- The undertaking to go beyond **MAKIBER's** ongoing compliance with the regulatory requirements by establishing additional environmental solutions in order to avoid and minimise the impact of its activities on the environment in the countries where it operates.
- Understanding those risk factors and the environmental impact associated with its activities that can be acted upon, with a view to reducing the effects of those activities on the environment, by means of appropriate monitoring and development of the best applicable technology that is available and within its means.
- Preventing pollution and damage to the environment by using resources more rationally, minimising the generation of wastes, discharges and emissions and optimising their correct handling, taking the life cycle into account.
- Fostering and maintaining a high degree of environmental awareness-building and culture among the members of its organization as well as encouraging it among its suppliers and subcontractors.
- Requiring business partners to adopt equivalent environmental commitments to those described in this policy.
- Setting up a suitable internal and external communication policy that provides the necessary information for the proper understanding of the environmental repercussions of Makiber's activities to the parties concerned, contributing in a more favourable dialogue with authorities, institutions and the general public.

Makiber's management is confident that everyone in the organisation understands the importance of this document and integrates it into their work style.

Management not only leads the implemented environmental management system but will supply the necessary resources to achieve the undertakings made under this environmental policy and the targets set annually.

Madrid, 11 October 2022
